

BLACK SWAN

What mental illness does Nina have in Black Swan? Throughout the film, Nina and the viewer find it difficult to distinguish reality from psychosis. The symptoms begin as visual hallucinations in which she sees an eerie version of herself in various situations; she even sees her stuffed animals and her mother's paintings mocking her.

Is Black Swan a dark movie? Darren Aronofsky's twisted 2010 psychological thriller Black Swan wasn't advertised as such, but it contains all the scary ingredients of a proper horror movie.

What was the point of Black Swan? Black Swan delves into the dark side of striving for perfection in the ballet world. The film portrays the intense mental health struggles faced by a ballerina chasing success. Nina's descent into madness blurs reality and fantasy while exploring the price of perfection.

Is Black Swan worth watching? The other element that makes this movie outstanding is Natalie Portman, who deserved all the awards she got for it, because she perfectly showed how her character struggled to become a different person, but eventually changed, while keeping her own self. Black Swan is an outstanding movie.

Why did Nina stab herself? The final twist reveals that Nina had hallucinated Lily's death and instead stabbed herself in the abdomen. However, given the artist she is, she continues performing the ballet's final act as a dying Odette, landing on a mattress with thunderous applause.

Why is Black Swan so disturbing? Throughout Black Swan Nina finds evidence of self-injury on her body and we witness her picking at hair follicles and minor lacerations. Due to the psychological horror genre of the film it's not clear how many or much of these scenes are real or hallucinations.

What happened to Beth in Black Swan? (at around 1h 22 mins) In Winona Ryder's final scene in the movie, where she is in the hospital with metal bars in her legs following her catastrophic accident and Nina returns the items she stole from Beth's room, Beth appears to go insane and stab herself graphically in the face right in front of Nina.

Why does Nina's mom paint her? The mother in the movie is sort of a puppetmaster, and she uses her hands to paint pictures of Nina, thus recreating Nina in the way she wants her to be. Breaking the mother's fingers is a symbolic attack against her control.)

Does Black Swan have a sad ending? Even with Thomas Leroy's (Vincent Cassell) twisted take on "Swan Lake" in Black Swan, the same basic story is told, with Nina tasked to play the white swan and the seductive black swan. As a result, Nina performs the closing number with a stab wound in her chest, which results in her actually dying at the end.

Does Nina from Black Swan have dissociative identity disorder? The findings of this research found that Nina Sayer in the movie of Black Swan fulfilled all the symptoms of DID. Due to her DID, Nina also showed the personality changes, by showing her development on her self-worth, self-image, and ideal-self.

Does Nina have an Ed Black Swan? Although the film never outwardly declares that Nina is suffering from an eating disorder, scenes highlighting caloric restriction and purging allude to a battle with anorexia.

What is Nina from Black Swan personality? Personality... childlike, insecure, and psychologically disturbed. The pressure of being the Swan Queen has been affecting Nina's behavior, and her perfectionism is starting to take a noticeable toll on her mental health.

Is Black Swan about BPD? We chose Borderline Personality Disorder as the diagnosis. In the film, we see how Nina transforms from an innocent and calm White Swan to a seductive and wild Black Swan as the film progressed.

Why was the *Mortal Instruments City of Ashes* cancelled? The film was originally intended to launch a film series and to continue with a sequel based on the second book, *City of Ashes*, that was in development with Sigourney Weaver set to join the cast. However, it was postponed indefinitely and ultimately cancelled due to the film's poor performance.

Will there be a part 2 of *The Mortal Instruments: City of Bones*? Summary. The *Mortal Instruments: City of Bones* was a box office flop, making only \$95.4 million worldwide against its \$60 million production budget. The sequel, *City of Ashes*, was canceled due to the poor box office performance and negative reviews of the first film.

Is *City of Ashes* the first book? *City of Ashes* is the second installment in the *Mortal Instruments* series.

How old is Clary in *City of Ashes*? From what's written in the official *Shadowhunters* TV series Wiki website, Clary is 18, so she is 2 years older than in the 1st book of TMI (she was 16 there) which this series is based of.

Why was *Mortal Instruments* a flop? By contrast, *The Mortal Instruments* doesn't get to the heart of Clary's story, nor does it bring anything new or interesting to the table. The latter prevented it from becoming a hit with non-readers, while its inability to pull the story off the pages ensured it would never be longtime fans' adaptation of choice.

Who is Clary's brother in *Shadowhunters*? Jonathan Christopher (Sebastian) Morgenstern is Clary's brother, and the main antagonist of books 4–6. Like her, he is a *Shadowhunter*, but he was born with demon blood in his veins. It was administered to him by his father, Valentine, while his mother, Jocelyn, was pregnant.

Are they really brother and sister in *The Mortal Instruments: City of Bones*? Clary learns that Valentine Morgenstern, who is supposed to be long dead but truly is not, the main antagonist of the series, is her biological father and her mother's husband. At the end of *City of Bones*, Valentine tells them that Clary and Jace are siblings — which, as they discover later in the series, is a lie.

What age is Clary in *City of Bones*? When fifteen-year-old Clary Fray heads out to the Pandemonium Club in New York City, she hardly expects to witness a murder -- much less a murder committed by three teenagers covered with strange tattoos and brandishing bizarre weapons.

Do Jace and Clary kiss in City of Bones? In City of Bones, Clary and Jace like each other, and kiss. At the end, Valentine shows up and is like “Ya’ll are siblings.

What is the next book after City of Ashes?

Do Clary and Jace have kids? Stefan Lucian Herondale is the 19-year-old eldest child of Clary and Jace Herondale. He bears his mother's fair complexion and his father's golden blonde hair.

Can I read City of Ashes first? There are six books in the series, in the following order: City of Bones, City of Ashes, City of Glass, City of Fallen Angels, City of Lost Souls and City of Heavenly Fire. If you're a fan of Magnus and Alec then you should try The Eldest Curses.

Who is Clary's boyfriend? Jace Herondale is Clary's boyfriend and soulmate.

Does Clary get pregnant in Shadowhunters? Most Shadowhunters have their babies at home with the assistance of a private midwife and/or The Silent Brothers, and Clary has chosen to also give birth at home, however she and Jace have agreed that they will only summon The Silent Brothers if absolutely necessary, and just have their midwife deliver the baby.

What chapter do Jace and Clary kiss in City of Ashes? The scene takes place during pages 170-174 of City of Ashes, in the chapter The Seelie Court, when the Queen tricks Jace and Clary into a kiss. I even gave it a name — "Because It Is Bitter." Because boy, is Jace bitter here.

Is there a prequel to the Mortal Instruments? The Infernal Devices is a trilogy by author Cassandra Clare, centring on a race called the Shadowhunters introduced in her The Mortal Instruments series. The trilogy is a prequel series to The Mortal Instruments series.

Is Mortal Instruments a spin off of Shadowhunters? The Mortal Instruments is a series of young adult novels by American author Cassandra Clare and is the first of the Shadowhunter Chronicles. The series follows Clary Fray, Jace Herondale, Simon Lewis, Isabelle Lightwood, Alec Lightwood and other Downworlders and Shadowhunters in the New York Institute.

What happened to Max in Mortal Instruments? Shadowhunters decided to scare to us death with Max's (Jack Fulton) near death experience, which was a pretty mean thing to do. In the books, Max dies from a blow to the head delivered by Jonathan/Sebastian when Max finds out his true identity.

Is Valentine really Clary's Father? Valentine Morgenstern was the husband of Jocelyn Fray, and the father of Sebastian and Clary. An advocate against Downworlders, Valentine led the Circle with the main goal of ridding the world of them.

Who is Clary's real mother? Very beautiful, warm, protective and bold, Jocelyn Fray is Clary's mother.

Does Jocelyn Fairchild come back to life? Eventually, Valentine "let" Clary retrieve her mother's body, telling her that it had always been his intention to allow them to reunite and wake Jocelyn, and that they would eventually join him. She was awakened by Magnus with a spell from the Book of the White, and she was reunited with Clary and Luke.
